Screened on 6 June, 2011

Runtime: 75'

Every day, the world over, large amounts of high-level radioactive waste created by nuclear power plants

Once the waste has been deposited and the repository is full, the facility is to be sealed off and never opened

And how is it possible to warn our descendants of the deadly waste we left behind? How do we prevent

Captivating, wondrous and extremely frightening, this feature documentary takes viewers on a journey

The film was followed by **Michael Madsen** as the director.
