

As we head into the final quarter of the International Year of Forests 2011, the United Nations Food and Agriculture Organization ([FAO](#)) would like to invite you to submit a photo of the forests that you know and love. Therefore they are asking you to send a photo that shows your connection to the forest. They want to get an impression or image which best explains what the forest means to you and why you decided to devote your life to serve forests. We would like to get a better idea of you, the people who work in forests and what links you to the forest.

The best photographs will be included in the next [Unasylva](#) publication, and added to the [FAO forestry photo library](#)

Rules
