The Social Good Summit is a three-day conference where big ideas meet new media to create innovative solutions. Held during UN Week, the Social Good Summit unites a dynamic community of global leaders to discuss a big idea: the power of innovative thinking and technology to solve our greatest challenges. The most innovative technologists, influential minds and passionate activists will come together with one shared goal: to unlock the potential of new media and technology to make the world a better place, and then to translate that potential into action.
