

16.10.2015 - «Calling hunger a terrible injustice» Secretary-General Ban Ki-moon marked World Food Day with a visit to the Milan Expo World's Fair, which is focusing on food security and nutrition.

Mr. Ban called for «food security for all the people around the world (and) to build a global movement to end hunger».

The theme for this year's World Food Day is «Social protection and agriculture: breaking the cycle of rural poverty».

«Social security reaches the most vulnerable. It prevents people from falling into extreme hardship. And it protects household food and nutrition security. To end hunger for all people forever, we have to recognize the indivisibility of the 17 Sustainable Development Goals» says Mr. Ban.

To end hunger is Sustainable Development Goal number two, and [WFP](#) has launched a #ZeroHunger campaign in order to create awareness about the subject.
