Free & Equal is an unprecedented United Nations global public education campaign for lesbian, gay, bisexual, transgender and intersex (LGBTI) equality.

A project of the United Nations Human Rights Office, Free & Equal raises awareness of homophobic and transphobic violence and discrimination, and promotes greater respect for the rights of LGBTI people everywhere.

The campaign engages millions of people around the world in conversations to help promote the fair treatment of LGBT people and generate support for measures to protect their rights.

### **Do you know how much discrimination really costs?**

Rates of poverty, homelessness, depression and suicide have been found to be far higher among lesbian, gay, bisexual and transgender people than in the general population. But it's not just LGBT people who pay the price. We all do. Every LGBT child thrown out of home and forced to miss out on education is a loss for society. Every LGBT worker denied their rights is a lost opportunity to build a fairer and more productive economy.

These losses are entirely self-inflicted. With different laws and policies in place and a different mind-set, we could and would achieve a more free and equal world – that is more prosperous too!

### **You, your friends and other individuals can make a difference too!**

- Speak out when you see any form of discrimination or violence against intersex people.
- Remember that intersex people may have any sexual orientation and gender identity.
